

Under anti-money laundering regulations, we, as a lender, our solicitors and the applicant's solicitors must take adequate measures to establish the source of funds that are involved in the transaction.

It is important to evidence where your applicant's deposit has originated, be it inheritance, business income, sale of a property, gifts or any other source, as soon as possible during the loan process to avoid any delays in completing the loan.

We appreciate that every deal is different, so if you are unsure what is required to evidence the source of funds, please contact your credit manager who will be happy to help you put the right documents together to swiftly progress your deal.
